

HOW TO DEAL WITH COVID-19 ILLNESSES

Students:

- a. During drop-off, the students will not be admitted to school if they show Covid-19 symptoms,
- b. During the school day, if the student shows Covid-19 symptoms or symptoms of being ill, the student will be taken to a designated “quarantine” room and parents will be asked to take the student home immediately and subsequently to a family doctor.
- c. The student can return to school if
 - The doctor issues a statement clearing the student from Covid-19,
 - The student’s Covid-19 test is negative,
 - The student had stayed at home for 14 days and is free of fever,
- d. If the student is positive for Covid-19
 - He/she must stay home for 14 days, after which the student can return with a negative Covid-19 test.
 - Parents must notify the school upon being notified of the test result being positive,
 - The rest of the students in the same classroom must take Covid-19 test and return to class only if the test is negative,

Employees:

- a. Employees will have a daily health check upon arrival to work,
- b. An employee must stay home for fourteen days if he/she or anyone in the household is ill with Covid-19.

Family Members:

- Students and their immediate family members’ must be free of COVID-19 symptoms.
- If a household member exhibits symptoms of COVID-19 or has tested positive for the virus, but the student does not show symptoms, the student MUST NOT participate in any in-person activity and must be immediately tested for COVID-19.
- Students or their Parents/family members who exhibit symptoms of COVID-19 must not be brought to any in-person activity.
- If a member of the student’s household tests positive for COVID-19, the parent/guardian must immediately inform the School.

STUDENT SCREENING AT HOME

Prior to bringing your child to school, please check him/her for the following Covid-19 symptoms, if any of the symptoms exist, please do not bring your child to school.
